

Duc H. Luu (MPI MIS & IMH-VAST Vietnam)

- Stochastic processes, random dynamical systems, rough path theory, neural (controlled) differential equations
 - Learning the stable dynamics with non-Lipschitz and chaotic behaviors: numerical attractors
 - Learning the non-autonomous dynamics: trend detection.
 - Signature theory for data streams: order book data (finance)
 - Topological space of chemical formulae (chemistry).
-
- LHD, P. Kloeden. SIAM J. Num. Anal., 2023
 - LHD, J. Jost. SIAM J. Fin. Math., 2023
 - LHD. Discrete & Cont. Dyn. Syst., 2022
 - E. Llanos et al. PNAS, 2019
